## LAST DAY AT GRAVESEND.

THE DWYERS WIN THE TREMONT STAKES AND THE HANDICAP.

An Immense Throng and Splendid Racing-Dry Monopole's Game Struzzle with Portland-A Walk Over for The Bard-The Bourben Downs Favor In the Mad. The spring meeting of the Brooklyn Jockey Club at Gravesend closed yesterday in a blaze of glory, about 15,000 persons being present, Mr. D. D. Withers, President Dwyer, and other competent judges say the attendance has been rarely surpassed at any track in America.

Yesterday morning broke dull and gray, and the clouds were portentous of rain; but for the first time during the meeting the elements relented, and although the sun did not show his face not a drop of rain fell during the day. Last night's succession of showers left the

track very heavy and holding.

The betting ring resembled a boehlye. Such struggling, pulling, pushing crowd as it was! It was no place for a well-dressed man and many an Adonis who braved the horrors of the ring to place a bet returned to his fair companion almost unrecognizable. His collar lay in a dejected fashion about his neck, his hat was crushed, buttons were torn from his clothes, and his dainty patent leathers had lost their

bad condition of the track, however, prevented the Emperor of Norfolk from having a fighting chance, he being utterly unable to run in the mud, and he was consequently scratched. Favor and Volante were also withdrawn, but it was not the mud in their case. It was fear of The: Bard, nothing more. The crowd complained but it did not do them any good. The Bard had a walk over, and gailoued slowly over the distance.

The other stake events on the card were the Tremont Stakes for two-year-olds at six furlengs, and the Fort Hamilton Handicap for three-rear-olds at a mile and an eighth, both of which were won by the Dwers. Oregon did not have to run fast enough to start the perspiration in the Tremont, and McLaughtin waited with him until the last furlong, when, releasing his hold of the chestnut colt's head, the crack shot to the front in three huge strides and cantered in a winner. The crowd knew a racchorse when it saw one, and cheered both horse and rider as they returned to the stand. The whipping that McLaughlin gave this rogue in the race in which he was beaten by Specialty on Monday had a salutary effect, and he ran a remarkably good race to-day. He was never headed, and always held his field secure. Now or Never was the only competitor that at all classed with him. The Dwyers played him for enough to pay his purchase money, \$10,500, and would have landed a good deal larger sum had they not doubled the rascal's consistency. After his defeat by Specialty on Monday, Mr. Phil Dwyer asked McLaughlin how he liked him. The jockey replied: "He'll be all right." The three pounds over weight pay horse from the ray will prove a dangerous coit when his roguish proclivities are eradicated. Eather Bill Daly's horse The Bourbon, winner of the Peyton Handicap and other good races at Washington and Baltimore this spring. Was thrown into the mile and an eighth handigap at 96 pounds and was completely overlooked by the islent, the beavy weight to 130 pounds. was made the favorite. The big bay horse ran a magnificent race, and di

After the run a Sun reporter met Pittsburgh Phil. The young plunger wore a very long face as he said: "There's a horse I've been watching for the past two weeks, and I made up my mind to win a barrel of money on him. I let him run loose to-day, thinking he couldn't go in the mud. That was a chance in a lifetime, and I let it pass." Father Bill won a small amount over his horse's success, but thousands of dollars were dumped on Favora. Pontiae and Dry Monopole were the only starters in the 100-pound race at a mile and an eighth. Pontiae didn't like the mud. Monopole, on the contrary, revelled in it, and under whin and spur gradually drew to the front in the homestretch. Palmer seeing he was beaten pulled Fontiae up. The latter will be a hard lorse to beat on a dry track at a mile or under. pulled Pontiac up. The latter will be a hard horse to beat on a dry track at a mile or under. watching.
The selling race was split, and run in two divisions, thus making eight races.

Befund won the first division handily, and Calera upset a good thing in Adrian in the last. The races in detail follow. It was rumored about the track during the afternoon that Mr. Philip Dwyer had had a few words with Jockey McLaughlin about McLaughlin's valet, which resulted in the discharge of the valet, and the filling of his place with a new man.

Mr. Sheridan's start in this race was not an enormous success. Harrisburg getting the boat of it by a length and a half, and Volunteer being practically left at the post. Going up the beakstretch Harrisburg maintained his lead and turned into the stretch in the van. Volunteer and Darling had made up a good doal of ground, and were second and third in the run home. Volunteer came very fast, next the rails, and pushed the favorite hard at the finish. Harrisburg was a very tired colt, but won by a scant length. Volunteer second, a length and a half in front of Darling, third. Dwyers pair, Penman and Carlton, made a sorry showing, and were beaten a furiong.

Going up the backstretch McLaughlin continued to ride Tea Tray vigorously, and at the half he had a three-lengths lead over Now or Never, who led the others by-six lengths. Wincom, was last and running sulkily, Round the turn Hawward endeavored to overther Toa Tray, and did close the gap somewhat, but as they swung into the run home McLaughlin plied his will, and under the lash Tea Tray drew away and won by two lengths. A Review of the Meeting-The Bad Weather

The spring meeting of the Brooklyn Jockey Club, which closed yesterday, was phenomenally successful when the remarkable stretch of bad weather which prevailed during the entire two weeks of its duration is considered. The attendance dally averaged over 5,000 persons, and had the weather been fine the figure would be much greater. Three fine days only were enjoyed, and on one occasion only was the track in anything like good condition. The weather was unpropitious from the inauguration day, and the memory of the track on which the Brooklyn Handicap was run will not soon dissipated. Nevertheless between 10,000 and 12.000 people braved the downpour and witnessed a great contest. This was but a prototype of days to come. The high-class horses engaged in the various events from day to day were too potent an attraction, and de-

attendance continued good.

A glance at the quality of the animals stabled at the track will speedily convince even the most credulous that the meeting just closed would have been the greatest ever known in America had it not been for the bad weather. The Brooklyn Jockey Club, during the thirteen days, hung up the enormous sum of 378.700 to be run for, and this action induced the owners of the best horses on the continent to run, Messrs. Baldwin, Haggin, and Storm sending delegations from the Paolifecoast, while Messrs. S. S. Brown, A. J. Cassatt, G. B. Morris, and J. D. Morrissey brought the flower of their stables to battle for the many rich stakes and purses. Despite the elements, the meeting was an assured success, both from a financial and racing point of view. The association derived no small profit from the fifty-two bookmakers who made the bettling ring resound with their cries, and the general public holped to swell the association's credit.

Indeed, if the bookmakers had their own way the meeting would have been continued indefinitely, they being extremely anxious to do business. They are practically estracted from Jerome Park, and are now booked for a season of idleness, until the opening of the Concy Island Jockey Club's track at Sheepshead Bay in the middle of June.

The Brooklyn Jockey Club is the youngest of the great racing associations, and this year had to accept whatever dates the other clubs were willing to give it. The Infant is remarkably precocious, however, and next year somebody will have to accept a few early dates or they greated the control of the great racing associations is remarkable. They have clearly demonstrated this they have made money and furnished good racing under the adverse conditions is remarkable. They have clearly demonstrated in the visual profits would do well to consult Mr. Dwyer to eradiente this evil, and so lar as his own club is concerned he has been shown that they will patronize tracks where share practically uscless, as the track has been in no shape to do w

Boston, May 30 .- The three-mile race between Teemer and Gaudaur to-day at the Point of Pines was witnessed by about 4,000 persons. To the uninitiated it was somewhat interesting, but to the experienced it savored of what is frequently termed "a put up job." The men is frequently termed "a put up job." The men got into line at 5:03 and started at 5:06. Both took the water at the same time. Teemer rowing thirty-leght strokes per minute and Gaudaur thirty-two. Teemer gained one length when an eighth of a mile away, and gradually increased it to the first turn, which was made at 5:10 by Teemer and 5:10 by Gaudaur. The return to the starting point was made in Similates, both turning together. Teemer cased up and took things very easy. They got away woll together, but Teemer soon led by one length. He still further increased his lead and turned the third stake at 5:18. Gaudaur turning at 5:18%. The finish was uninteresting, as no real work was done by either man. Teemer finished at 5:2%, two and a half lengths ahead of Gaudaur. Time, 16 minutes. GALA DAY AT JEROME PARK.

Although the helds were limited, the number of mutual pool tickets sold was greater than on the opening day, when the number was erroneously printed as 31.492. It should have been 13.492; but the money value given, \$37.910, was correct. The number of straight and place tickets sold on the first race yesterday was 1.92; the second. 2.55; the third, with only two horses in, 1.59; the fourth. 3.633; the fifth 3.598, and the sixth, 2.855, making a total of 16.297, and representing \$51.035. Sir Dixon defeated Prince Royal in the Carlton Stakes at Gravesend, but it must not be forgotten that the chestnut celt made all the running on that occasion and he will not lack admirers to-day. Fine Work by the New York Cinb, but they Break Even on the Day-Brooklyn's Re-markable Work-The Attendance at Some of the Games-Fleures that Tell. Probably the greatest base ball day that

we have in this part of the country during the season is Decoration Day. We have only to call the attention of our readers to the games which follow to bear out our assertion. Not only do we publish as a great. If not a greater, number of games than has ever been published in a New York daily newspaper, but we have received from our correspondents the attendance at the four base ball Leagues in which New Yorkers are greatly interested. The returns from these four Leagues show that 123,207 persons saw the games in which the thirty-two clubs representing the Leagues took part, While considering these figures it must not be forgotten that it was far from a perfect base ball day, and it is not too much to say that 50,000 persons remained away from the games through lear of getting wet. cames was the wonderful success of the Brook lyn Club in its great fight for first place in the championship race. No club ever put up a better game than they did in their thirteen-inning contest in the morning. In the afternoon they could have done better even than they did, but all they wanted was the victory, and that they got. The rule of the day was for the two clubs playing together to break even. This was not the case in Brooklyn, Boston, Washington, and Cleveland. Next to the Brooking games, the two defeats of the Chicago Club by Washington was a surprise. In this city the New York Club won and lost. It was rather a surprise that the afternoon game, which every one thought to be safe, was lost; but a club cannot accomplish impossibilities. In the afternoon Morris and Keefe were substituted for Welen and Galvin, with Carroll and Ewing behind the bat. Keefe seemed in the very best form, while Morris did not give much promise at the start. The New Yorks, however, found that they had their hands full, for the twisters which ho put over the plate were of the most puzzling kind. The New Yorks got a few hits together in the first and the eighth innings from which they earned four runs, but outside of this they were unable to do anything. The visitors mastered Keefe's secret in the fourth inning, and with the assistance of one or two costly errors scored six runs, four of them carned. Again in the eighth inning they hit the ball hard. Ewing played a masterly game, and took advantage of every point, but the manner in which the visitors pounded the ball overcame all the fine field work by the New Yorks. The fielding on either side was very fine. A wonderful catch by Tiernan in the third inning was one of the great fielding feats of the day. It was a game in which the most perfect fielding could not have changed the result. What was wanted was base hits, which the visitors got, and the home team did not.

The New Yorks started off with a fine streak of batting. This and the knowledge that Morris was not in the best of health made it seem as though the New Yorks started off with a fine streak of batting. This and the knowledge that Morris was not in the best of health made it seem as though the New Yorks would have an easy time of it, but they did not. Hits by Tiernan, Ewing, and Connor gave the New Yorks their first two runs.

Up to the sixth inning Pittsburgh had not scored a hit. Then, like a slugging team, they went at Keefe's curves, and sent them sailing all over the lot.

The eighth linning opened with Tiernan striking out. Interest in the game had diminished to a large extent, when suidenly a change fame over everything. Ward dopped the ball into centre lied for one base, and Ewing followed wi
